

Prefabricated Cable Assembly

Safe 24 V operating low-voltage cable assembly is of simple design and rugged construction to ensure long life and minimum maintenance. The self-regulating feature enables the heating system to vary power output in response to changes in surrounding temperatures and weather conditions. As temperatures increase, the self-regulating cable automatically decreases its heat output, providing dependable over temperature protection. Self-regulating cables conserve energy by providing heat when and where it is needed over the entire circuit length. Available cable assemblies include 12 m (39.4') of regular electrical cable connected in our manufacturing facilities to self-regulating cable.

FUNKTIONER

Self-regulating heating technology from nVent RAYCHEM

Touch-safe operating temperature

Prefabricated and tested in factory

Designed for installation into mounting channel

Rugged construction to withstand harsh environmental conditions

SPECIFIKATIONER

Materiale: Copper;Fluoropolymer

Finish: Nickel Plated

Table 1/1

Katalognummer	Length 1	Length 2	Operating Voltage	Temperature	Number of Conductors
RHS4TA9CA12	9 m	12 m	24 V	80 °C Max	2
RHS4TA7CA12	7 m	12 m	24 V	80 °C Max	2
RHS4TA6CA12	6 m	12 m	24 V	80 °C Max	2
RHS4TA4CA12	4 m	12 m	24 V	80 °C Max	2

YDERLIGERE PRODUKTOPLYSNINGER

Length 1 represents the length of self-regulated heating cable. Length 2 represents the length of electrical cable.

ADVARSEL

nVent-produkter skal kun installeres og anvendes som angivet i nVents produktvejledninger og træningsmaterialer. Vejledninger er tilgængelige på www.nvent.com og hos din nVent kundeservicerepræsentant. Forkert installation, misbrug, fejlanvendelse eller anden unkladelse af fuldt ud at følge nVents instruktioner og advarsler kan medføre funktionsfejl, materielle skader, alvorlige personskader eller død og/eller ugyldiggøre din garanti.
