Telescoping Pipe Stand

The nVent CADDY Telescoping Pipe Stand is an adjustable and flexible solution for supporting horizontal pipe runs using a traditional V-Saddle or bolt flange attachment method. The design ensures a faster installation that quickly adapts to a variety of pipe sizes and heights from the floor. The unique V-bolt fastener—with built in nVent CADDY Rod Lock Technology and flange attachment tabs—can adapt to a large range of bolt patterns, sizes and pipe diameters, ultimately reducing inventory and the amount of components needed with over two-thirds savings. Offering a complete out-of-the-box assembly, the nVent CADDY Telescoping Pipe Stand is a contemporary solution for pipe runs.

FEATURES

- Supports and fastens low-to-the-ground horizontal pipe runs
- Telescoping post provides fast vertical height adjustment
- Designed to minimize fabrication and reduce installation time of a complete stand compared to traditional methods
- Integrated weep hole at bottom of stand provides drainage for condensation
- Includes four holes for anchoring base to floor
- Conforms with Federal Specification WW-H-171 (Type 36, 37, 38, 39), Manufacturers Standardization Society ANSI/MSS SP-58 (Type 36, 37, 38)

SPECIFICATIONS

Static Load Safety Factor: 3.5:1
Finish: Electrogalvanized
Material: Steel

CTS10A24					3.4 kg

ADDITIONAL PRODUCT DETAILS

When insulating pipe install V-bolt after insulation.

Telescoping pipe stand can accommodate pipes up to 24" when v-bolt is removed. Installer must determine weight of the pipe and proper spacing when supporting larger sizes.
