

Stub Down, PVC

The nVent CADDY Reinforced Conduit Stub Down (RSD) is a fast and secure method to install PVC to concrete formwork. Designed to guard against damage and prevent loss of raceways during a concrete pour, the RSD series eliminates the need for additional support during installation. Achieve confidence on-the-job knowing your conduit layout will remain in its desired configuration after the concrete deck is finished.

FEATURES

- Integrated reinforcing stand - resists up to 200lbs of force
- Generous radius for ease of wire pull - 50% less force required
- Threaded opening designed for standard fittings
- No fish tape hang ups

SPECIFICATIONS
