

# Intersystem Bonding Termination Bar

The nVent ERICO Intersystem Bonding Termination Bar is designed to meet rigorous industry standards with options for both zinc and bronze alloy. The Intersystem Bonding Termination Bar is mounted adjacent to the meter base or service entrance equipment, making it convenient to connect and terminate grounding conductors from telephone, CATV, radio, and television antennas. This bar is impact-resistant and UV-stabilized, ensuring durability.

## CERTIFICATIONS

## FEATURES

Interconnects and terminates grounding conductors from telephone, CATV, radio and TV antennas

Ideal for residential and small commercial applications

Integral mounting base enables easy installation

Connects to grounding electrode conductor – does not rely on meter base enclosure bonding connection

## SPECIFICATIONS
