

RackPower Automatic Transfer Switch

Data Solutions

The Rack Automatic Transfer Switches provide power redundancy to rack-mount IT devices that are not designed to take advantage of data centers' second power source. The ATS devices provide power failover for single-corded devices.

INDUSTRY STANDARDS

- CE / EMC Certified
- LVD Certified
- 9001 / 14001 Certified
- RoHS3 and REACH Compliant

FEATURES

- Provides power redundancy to single-corded IT devices, ensuring there is no downtime that could be caused by power interruptions
- Devices automatically and seamlessly switch power sources when power loss is detected from the primary input
- Power inputs can be switched at the rack on the ATS itself or remotely over IP, saving time and resources
- Power metrics can be monitored remotely over IP to assist with capacity planning and improve overall efficiency
- Provide remote on/off outlet switching over network IP
- Free management software provided to remotely manage the ATS
- All units include monitoring, circuit monitoring and outlet switching
- Local meter is field replaceable 2.00 (51mm) color LCD
- Overload protection: Hydraulic-magnetic Miniature Circuit Breaker (MCB)
- Transfer time: 10ms
- Operating temperature: 23-140 F (-5-60 C)
- Operating humidity: 0~95%, non-condensing
