

Stainless Panel, MPPS

A stainless steel panel for a mild steel console is a cost effective alternative to a complete stainless steel console within certain environments. For example, a mild steel panel would deteriorate quickly if operators are exposed to chemical agents and transfer them onto the console during operations and maintenance.

FEATURES

Description: For replacing the standard panel on MPC top section units where high corrosion resistance is required.

Material: 2 mm AISI 304 pre-grained stainless steel.

Finish: 400 pre-grained stainless steel.

SPECIFICATIONS

Thickness: 0.08in
Finish: Brushed
Material: Stainless Steel 304
