NÚMERO DE CATÁLOGO

24563-040

The nVent SCHROFF AirBender Inlay enhances cooling efficiency by up to 85% per slot by balancing airflow in mixed impedance environments. It is easy to install, reduces fan noise, and improves overall system performance.

CARACTERÍSTICAS

AirBender card guide inserts enhance cooling efficiency in electronic systems by up to 85% per 4HP slot by balancing airflow in environments with mixed air impedances

70% blockage: The AirBender introduces additional air impedance in slots with less critical components, redirecting airflow to more vulnerable zones and ensuring better cooling outcomes for all cards

Easy installation: Simply clip the AirBender into nVent SCHROFF plastic card guides and optionally secure it with a screw

Favors reduced noise development from the fans by maintaining them at an efficient operating point

Air bender and CassettePRO cannot be used together in the same slot.
